

Potlatch Inland Red Cedar

FEATURING FINGERJOINT BEVEL SIDING

PREMIUM INLAND RED CEDAR

The construction industry has long recognized that the natural durability of Inland Red Cedar makes this specie ideal for virtually any exterior application. Potlatch is able to combine a *large* and *stable* supply of cedar with quality manufacturing to produce a consistent supply of high quality specialty cedar products. Our finger-joint and edge glued products are excellent examples of our commitment to high quality cedar products.
